Product description

Static open-cell polyurethane foam mattress with pyramid-shaped supporting surface, for general, specialist and low and medium decubitus risk hospitalisation.

The mattress comes with a special waterproof, breathable, bi-elastic, antistatic cover treated with the Zeneca bacteriostatic-fungostatic system. Suitable for a highly breathable posture with a low compressive gradient on the musculoskeletal system, useful in incontinent patients and for improved epidemiological control.

CE marked medical device, performance requirements certified UNI 10707 rev. 2003, comfort and anti-decubitus index certification (ergocert D28) and approved in fire reaction class 11M.

Functional capacity minimum Kg 30 maximum Kg 200.

Sag Factor - elastic polyurethane comfort index: N 2.86.

Blue colour.

Product that allows cardiac massage.

Hypoallergenic, non-toxic, odourless and silent product.

Latex free.

Radiotranslucent product.

Density 35 kg/m² and medium-high bearing capacity 3.5 Kpa
(Other specifications and densities available on request)
