Product description

High-performance trimodular static mattress with high-density and high bearing capacity open-cell polyurethane foam base, thermo-pressurised intermediate surface (visco-elastic - slow memory) made of Synergel® and soft memory foam support surface (visco-elastic - slow memory) with wave-shaped contouring in 50 S VE with touch effect. For general, specialist and low to medium-high risk decubitus.

The mattress is equipped with a special, waterproof, breathable, bi-elastic, antistatic cover treated with the Zeneca bacteriostatic-fungostatic system. Indicated for a highly breathable posture with a very low compressive gradient on the muscular-skeletal apparatus for the prevention of skin pressure lesions and painful and inflammatory symptoms. Useful in incontinent patients and for improved epidemiological control.

CE marked medical device, performance requirements certified UNI 10707 rev. 2003, comfort and anti-decubitus index certification (ergocert D28) and approved in fire reaction class 11M.

Functional capacity minimum Kg 30 maximum Kg 250.

Sag factor - elastic polyurethane comfort index - not applicable.

Blue colour.

Product that allows cardiac massage.

Hypoallergenic, non-toxic, odourless and silent product.

Latex Free product.

Radiotranslucent product.

Base density 40 kg/m² and high bearing capacity 5.2 Kpa - memory foam support.

(Other specifications and densities available on request)

Available sizes
